MEMORANDUM FOR: DDS/Information Processing Coordinator

THROUGH : Director of Logistics

SUBJECT : Excess EAM Tabulating Cards

1. The EAM cards listed on the attachment are excess to any known current requirements and therefore are available for issue at no cost. While we believe that GSA would readily accept these cards if we desire to dispose of them through their facility, it does appear that Agency components utilizing EAM equipment would be in a position to utilize same.
2. In this period of budget cuts and forced economies, this material represents a cost avoidance of approximately \$35,000 which we should take advantage of internally. Our efforts to locate possible users have not been too successful.
3. Your assistance in soliciting requirements and coordinating this matter with the appropriate Agency components will be appreciated.
